System Requirements

IBM® or compatible PC

Windows 98/me/2000/XP/ Vista™, Windows® 7

Setup

1. Prepare 2xAAA Alkaline Battery. (included)
2. Open battery cover.
3. Insert the battery correctly according to the polarity marks of the battery grooves.
(Do not insert battery in reverse, otherwise damage may be caused to mouse)
4. Push the cover on until a"click" sound is heard,assuring cover is successfully locked into place.
5. Switch mouse on by the ON/OFF feature on the bottom of the mouse.
6. Press the Bluetooth connection button on the bottom of the mouse. (If your computer does not support bluetooth, you must install a Bluetooth USB adapter-not included)
7. Open the Bluetooth manager software on your computer and follow the instructions to search and find remote peripherals.
9. Once search is completed, confirm pairing and connection.
    Note: The mouse does not require any pairing code and you may have to disable the pass code option on your Bluetooth manager software.
10. Once paired, the mouse will connect automatically to the computer every time, computer is restarted.
    Note: If the mouse is disconnected during use or the connection button is accidentally pressed, the mouse will have to be reconnected using the Bluetooth utility software.
11. Once battery life is low, indicator (located at front of mouse) will flash on.
12. Mouse disables and goes into sleep mode to conserve battery. Simply shake mouse to cancel this sleep mode feature.

Caution :
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Compliance statement:
1: This device is verified to comply with Part 15 of the FCC Rules. Operation subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,there is no guarantee that interference will not occur in a particular installation.If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
